

K-love radio station serves my local community by providing positive and encouraging music. It's great to listen to a station that I support monthly and I can enjoy with out commercials.

If K-love where displaced by LPFM it will impact my daily life and I will not listen to radio stations. I would rather listen to CD's than most of what is on the radio.

K-love is for all ages and all types of people. Sharing good music with clean lyrics fits the entire community and the entire US. K-love is what America needs.
